## Director's Note

Welcome to the Christmas edition of our monthly newsletter your inside look at what's happening at KB Bathrooms.

It's been a whirlwind at KB as we've just come through what is traditionally the busiest 3 months in the bathroom industry and it feels like days since our last newsletter.

December tends to be a bit steadier, but we're kept just as busy prepping for our stock take at the end of the month.

I would like to take this opportunity to thank all our valued customers for their support this year and wish you all a prosperous New Year. Let's dive in.

## Trend Watch

This month's design direction is all about NEWSTALGIA, where traditional charm meets modern practicality.

From shaker-style furniture in bold matt finishes to versatile ply wallboards and natural flooring, our displays celebrate the balance of heritage and innovation.

What's Inspiring Us Now...

Insight from the KB Bathrooms Display Team

### Styling Tip:

- Layer natural textures with bold colours to create depth and warmth.
- Use lighting to enhance contrast and highlight key features.

### Colour Story: Heritage Meets Texture

Our furniture finishes, Matt Henley Blue, Matt Boston Green, Matt Dove Grey, Matt White, and Matt Black create a rich foundation.

When paired with ply wallboards and wood-effect flooring, they tell a story of tradition meeting modernity.

### Ply Wallboards: Bright & Versatile

Ply wallboards are a showroom favourite this season. Available in marble-effect, wood-look, and tile-effect finishes, they offer the elegance of traditional materials with the ease of modern installation.

### Styling Tip:

- Use marble-effect wallboards to brighten darker furniture tones
- Choose tile-effect panels to nod to heritage styling without the hassle of grout.
- Pair wood-look wallboards with matt finishes for a natural, tactile sanctuary.

### Styling Tip:

- Pair deep matt finishes like Henley Blue or Boston Green with bright wallboards for contrast.
- Use arch mirrors and layered lighting to echo vintage charm in a contemporary way.
- Ground the look with wood-effect flooring for warmth and balance.

### Modern Take on Traditional

Shaker-style furniture like the Zaneti Clarity unit brings timeless detailing into 2025.

Paired with traditional taps featuring curved spouts and period accents, the look is refined and characterful. Perfect for clients seeking a bathroom with soul.

### Wellness Meets Nostalgia

Smart mirrors, digital showers and heated towel rails bring modern convenience, while traditional forms keep the space grounded in heritage.

### Styling Tip:

- Create a 'wellness zone' with mood lighting and plush textiles.
- Balance tech features with wallboards and flooring that feel warm and timeless.

## Product Spotlight

### Non-Illuminated Mirrors at KB Bathrooms

With bathroom lighting becoming increasingly popular, we've expanded our range to include non-illuminated mirrors – perfect for pairing with your chosen lighting setup.

## Soho Oak Furniture

I love the warmth of natural wood in a bathroom. The Soho Oak range brings that spa-like feel while keeping things modern and clean.

It's perfect for adding texture and making the space feel less clinical.

## Cairngorm Marble Flooring

Marble is always a classic choice, and Cairngorm has this gorgeous veining that adds interest without feeling busy.

It really brightens the room and gives that high-end feel that makes the space special.

## Natalie's Picks...

While putting this look together, I wanted something that feels calm and inviting but still has that touch of luxury.

Here's what I have chosen and why:

## Brushed Brass Brassware

Brushed brass is such a beautiful finish it's elegant without being too shiny or overpowering.

It works so well with the oak tones, adding a little bit of glamour while keeping the overall look soft and warm.

Customer wants wall-hung WC but fitter has never installed one before and is unsure.

All KB wall frames come with detailed installation instructions, or book visit to our PDA for hands on training.

I have concrete floor in bathroom and want to install a shower tray, is this possible?

KB shower trays have a compatible easy plumb kit containing legs and panels to allow fitting in this situation.

Customer wants niche in shower but is concerned about water ingress in the future.

The KB Niche wetwall inset is a no-joint, one piece solution, available in a range of sizes.
